Hamza Khan

hamza81khan81@gmail.com

Growing Developer

OVERVIEW

Data Science Student having hands-on in backend and database area. I also worked with UI for web Frontend and possess keen Knowledge of APIs & various other version controls.

EXPERIENCE

CRM (Call Center)

Technologies: Django, SQLite

- Featuring user roles for Admin, Team Leader, and Agent. Implemented functionalities such as contact import/export, backup, and user management for efficient call center operations.

Flask API

Technologies: Elastic Search, Docker, Flask, Json

- Developed Flask API for efficient data search from cloud and local files.
- Integrated Elastic Search for improved search capabilities.
- Containerized Flask applications using Docker for seamless deployment.
- Expertise in JSON data handling for efficient data exchange.
- Thorough testing and debugging to ensure reliability.
- Created comprehensive API documentation for easy adoption.

Student Attendance App (using Facial Recognition)

Technologies: Django, Kotlin, Rest Framework, SQLite, OpenCV

- Backend made using Django Rest Framework made API endpoints to connect with the frontend Android side
- Kotlin is used in the app Development
- Used Retrofit to connect with server

Resturant Billing Desktop Application (.Net Framework)

Technologies & Hardware: C#, .Net Framework, and Thermal Printer

- Proficient in developing desktop applications using C# and .NET Framework, specializing in creating intuitive user interfaces and robust functionality.
- Experienced in integrating thermal printers for receipt printing, ensuring seamless transactional processes and professional-quality output.
- Skilled in utilizing .NET Framework libraries and components to optimize application performance and enhance user experience.
- Capable of troubleshooting and debugging desktop applications to ensure smooth operation and resolve any technical issues promptly.
- Familiarity with hardware integration, including configuring and connecting thermal printers to desktop systems, ensuring reliable printing capabilities.

EDUCATION

1. **High School**
   2020-2021
   Percentage: 87.20%

2. **Diploma in Computer Engineering**
   2021-2023
   Percentage: 72.63%

3. **Data Science Graduation (2nd Year)**

SKILLS

- Django
- SQLite
- Git
- Kotlin
- C# (Hands-On)
- Html, CSS, JS
- UI Designing
